Conversational AI Specialist with 7+ years of experience across Dialogflow CX, CX Studio, NLP, and GenAI systems. Proven track record of designing and scaling enterprise-grade chatbots and voicebots across omni-channel platforms.

Hands-on experience in Conversational AI, including Google Dialogflow CX, delivering 3 end-to-end implementations across enterprise-scale systems with expertise in intent design, utterance modeling, and flow orchestration.

Built and scaled conversational systems handling 10K–100K interactions/day, integrating LLMs (Gemini, OpenAI) with structured dialogue systems.

CORE SKILLS

- **Conversational AI Platforms:** Google Dialogflow CX, CX Studio, Playbooks, Google ADK
- **Chatbot & Voicebot Development:** 3+ years experience in intent design, flow orchestration, routing, fallback handling, and omnichannel conversational systems
- **GenAI & LLMs:** Gemini, OpenAI, LangChain, RAG, Prompt Engineering
- **NLP/NLU:** Intent classification, entity extraction, semantic parsing
- **Backend & Integration:** Python, FastAPI, Node.js, REST APIs
- **Cloud:** GCP, AWS (SageMaker), BigQuery
- **Other:** Docker, Kubernetes, CI/CD, MLOps

EXPERIENCE

virtusa.com

(remote) Gurugram, India

Lead Software Engineer (GenAI) - client United Health Group – Aug'25 to Present

- Conversational AI Engineer on Google Dialogflow CX & Playbooks for enterprise healthcare chatbot
- Built and optimized Advocate Assist chatbot handling 10K–100K interactions/day
- Designed end-to-end conversation flows, intents, and routing logic
- Integrated LLM-based responses (Gemini) with structured Dialogflow flows

adeptmind.ai

(remote) Delhi, India

ML GenAI Engineer → Technical Project Manager - DLP Team – Sep'23 to May'25

- Led development of AI-powered Dynamic Landing Pages (SEO + NLP driven)
- Built and scaled LLM services (100K+ requests/day) using FastAPI + Redis
- Worked on intent classification & NLP pipelines for search systems

Machine Learning (Natural Language Processing) Engineer - Search Team – Apr'22 to Sep'23

- Built query understanding & content understanding NLP systems
- Developed classification pipelines (distilBERT, HuggingFace, PyTorch)

- Designed intent-driven routing for search and recommendations
- Deployed models on AWS SageMaker

[BlueStacks.com](https://bluestacks.com) / now.gg

(remote, onsite) Gurugram, India

Senior Member of Technical Staff – QA Automation Team – Sep’21 to Apr’22

- Worked on Dialogflow-based chatbot integrations via Kommunicate
- Integrated conversational flows into Zendesk ecosystem

Member of Technical Staff – Technical Support → QA Automation Team – Jun’19 to Aug’21

- Built NLP-powered tools for automated replies and support workflows
- Worked on chatbot integrations and multilingual automation systems

EDUCATION

Master's in Machine Learning and Artificial Intelligence

Liverpool John Moores University, United Kingdom

Liverpool, UK

Jul’22 to Nov’22

Executive Diploma in Machine Learning and Artificial Intelligence

International Institute of Information and Technology Bangalore

Bangalore, India

Jun’21 to Jun’22

B. Tech (Computer Science)

Maharaja Surajmal Institute of Technology, GGSIPU

Delhi, India

May’15 to Jun’19

CERTIFICATIONS

Product Management & Agentic AI – IIT Patna x Masai (2026)

Generative AI Foundations - Microsoft x UpGrad (2025)

Master’s Immersion Program - LJMU x UpGrad (2024)

Advanced Generative AI – UpGrad (2024)

ACADEMIC PROJECTS AND ACHIEVEMENTS

- Built **LLM + RAG** chatbot over YouTube data (LangChain + FAISS)
 - Developed **multilingual product search assistant** (English/Japanese)
 - Implemented **intent classification systems** for large-scale NLP pipelines
-
