Machine Learning Engineer with 6+ years of experience building scalable solutions across NLP, GenAI, and Deep Learning. Proven expertise in deploying LLM services, managing MLOps pipelines, and driving cross-functional product development. Strong foundation in Python, AWS, and end-to-end ML lifecycle.

SKILLS

 **Machine Learning:** Linear/Logistic Regression, XGBoost, SVM, Clustering (K-Means, DBSCAN), Time Series

 **Deep Learning:** CNN, RNN, LSTM, GRU, Transfer Learning, Transformers

 **GenAI:** OpenAI (GPT-4/o/mini), SORA, Grok, LangChain, RAG, Prompt Engineering, Agentic AI

 **NLP:** BERT, distilBERT, spaCy, HuggingFace, Lexical/Semantic/Syntactic Parsing

 **Tools:** Git, Docker, JIRA, Jenkins, Kubernetes, Prefect

 **Cloud:** AWS (SageMaker, S3), GCP, BigQuery

 **Languages & Frameworks:** Python, JavaScript, Dart, Flask, Django, React, MCP, A2A

EXPERIENCE

virtusa

(remote) GURGAON, INDIA

Lead Software Engineer (GenAI) - client United Health Group – Aug'25 to Present

- Working on Advocate Assist conversational agent for proactive chat support using leading GenAI solutions by Google Cloud Platform (gemini, DialogFlow CX, Playbooks)
- Closely working with architect, Product Owner, Delivery Manager and Business to deliver production grade software at a scale of 10K to 100K calls per day.

adeptmind.ai

(remote) DELHI, INDIA

ML GenAI Engineer → Technical Project Manager - DLP Team – Sep'23 to May'25

- Built the high-revenue Dynamic Landing Pages (DLP) product from scratch under CTO guidance, leading ML/GenAI efforts to auto-generate SEO-optimized retail pages that improved Google rankings and boosted client footfall
- Built, scaled and maintained an in-house LLM service handling 100K+ requests/day using FastAPI, Celery, and Redis
- Led cross-functional planning (Scrum, retrospectives), interfacing with product, engineering, and business stakeholders to align roadmap and delivery
- Mentored new hires, contributed to core model development and MLOps (GitHub Actions, Kubernetes, Prefect) and drove documentation and process maturity

Machine Learning (Natural Language Processing) Engineer - Search Team – Apr'22 to Sep'23

- Maintained Content Understand (CU) and Query Understanding (QU) Machine Learning components using PyTorch, HuggingFace, FastAPI, distilbert, nlp
- Built and deployed category & classification pipeline via AWS Sagemaker; deprecated Tensorflow
- Built scraping tools and live inventory software (Python, Go, TypeScript, SQL) for malls, retailers

[BlueStacks.com](#) / [now.gg](#)

(remote, onsite) Gurugram, India

Senior Member of Technical Staff – QA Automation Team – Sep'21 to Apr'22

- Performance optimization for [now.gg](#) BlueStacks Android App Player on Cloud
- 5X reduction in test development time and 2X reduction in Suite Run Time using Data Analysis
- Regression models for revenue prediction & release funnel tracking (big data, p-value analysis)

Member of Technical Staff – Technical Support → QA Automation Team – Jun'19 to Aug'21

- Developed a multi-lingual PyTest-based automation suite for BlueStacks 5 (Windows 7, 8, 8.1, 10)
- Developed NLP-powered tools over Zendesk for SEO, log analysis, and automated replies
- Integrated and customized [Kommunicate.io](#) – DialogFlow live chat into Zendesk and App Player

(2015-2019) intern @ Shobha Cards, Aam Aadmi Party, and BlueStacks as a technical expert.

EDUCATION

Master's in Machine Learning and Artificial Intelligence

Liverpool John Moores University, United Kingdom

International Institute of Information and Technology Bangalore

Liverpool, UK

Jul'22 to Nov'22

Jun'21 to Jun'22

B. Tech (Computer Science)

Maharaja Surajmal Institute of Technology, GGSIPU

Delhi, India

May'15 to Jun'19

ACADEMIC PROJECTS AND ACHIEVEMENTS

- RAG / LLM-based [music chatbot app](#) over scraped YouTube data - faiss, langchain, gemini
- LLM-based multi-lingual (English, Japanese) [product search app](#) over Mercari - neondb, gemini
- Product Management and Agentic AI from IIT Patna x Masai (6 months) including building full product road maps, mvps and Agentic AI solutions using GenAI tools
- Advanced Certification in GENAI from UpGrad (6 months) and Microsoft (1 month) including building RAG solutions from scratch
- Master's thesis on Hierarchical Text Classification using Contrastive Learning - nlp, distilbert, r&d
- Video [Gesture Recognition](#) using Deep Learning - MobileNet + Gated Recurrent Unit
- Telecom Churn [Case Study](#) using Machine Learning - PCA, XGBoost, Logistic Regression

- [Automatic Ticket Classification](#) using Topic Modelling (NLP, spaCy) followed by Random Forest
 - [Black Friday Sales Prediction](#) Hackathon (Ranked in Top 15%) - Linear, Ridge, Lasso Regression
 - Bots for [Facebook](#) and [WhatsApp](#) using PyAutoGUI
 - Researched Game Playing AI and Recommendation Engines in the final year of my B. Tech
 - Worked on GenAI-based applications - RAG, AI Agents, Multi Agent systems on a contract basis
 - Conducted 30+ Knowledge Transfer sessions across multiple technical teams
-
